

## Vision for the Community

---

A Great Home and A Caring Community, where we  
Share our Values,  
Pursue our Passions,  
Fulfil our Hopes and,  
Treasure our Memories.

The Vision describes a Singapore that is a **Great Home** for all residents, and where residents feel a great sense of belonging to, and pride in, Singapore. Residents **Care** about the community, coming together to take ownership of community issues, taking initiative to organise meaningful activities for the community. People actively participate and volunteer to help make the community a great home for all. Neighbours and families **Care** and look out for one another, leaving no one behind.

Share our Values	We share common values such as hard work, filial piety and respect for one another. We recognise the diversity in our community and welcome newcomers by sharing our values and traditions with them. We live and work together harmoniously, regardless of race, language, or religion.
Pursue our Passions	We dare to dream and pursue our passions and aspirations. We are a vibrant and active community where people actively pursue their interests, while helping to make the community a better place for all.
Fulfil our Hopes	We are a meritocratic society where everyone has an equal opportunity, as long as we are willing to work hard to achieve our goals. We encourage and support each other in our journeys, as we work together to shape a common destiny.
Treasure our Memories	We are bonded strongly by the collective memories of our nation's journey, and the common experiences that we share with fellow citizens, which we fondly remember. We treasure and learn from the past, even as we look to the future.
